Mr. Poleck,

Would you please be able to tell me if this report is factual or not?

<http://mediatrackers.org/2013/02/25/epa-data-points-to-clean-water-act-violations-by-bad-river-chippewa/>

I read Wisconsin Public Radio articles and it suggests the EPA gave "Class One status for the water standards" and yet the New York Times reports 241 violations. Let us filter out the biased political rhetoric and please discuss the truthfulness of the report suggesting 241 violations. Did or did not these 241 water standard violations occur?

Thank you.

Andre A. Bilak
